# The Vision..

Our vision is to help create a society governed by the rule of law where the values of justice, equality, human dignity, public liberties and human rights are upheld in an atmosphere of tolerance between all components of the community irrespective of religion, sect, race or nationality.

The Center's view on human rights activities emanates from the principle of honoring human dignity and endeavoring to put the provisions of international charters, the Constitution of the Kingdom of Bahrain and the National Action Charter into practice.

# The Vision

# The Mission..

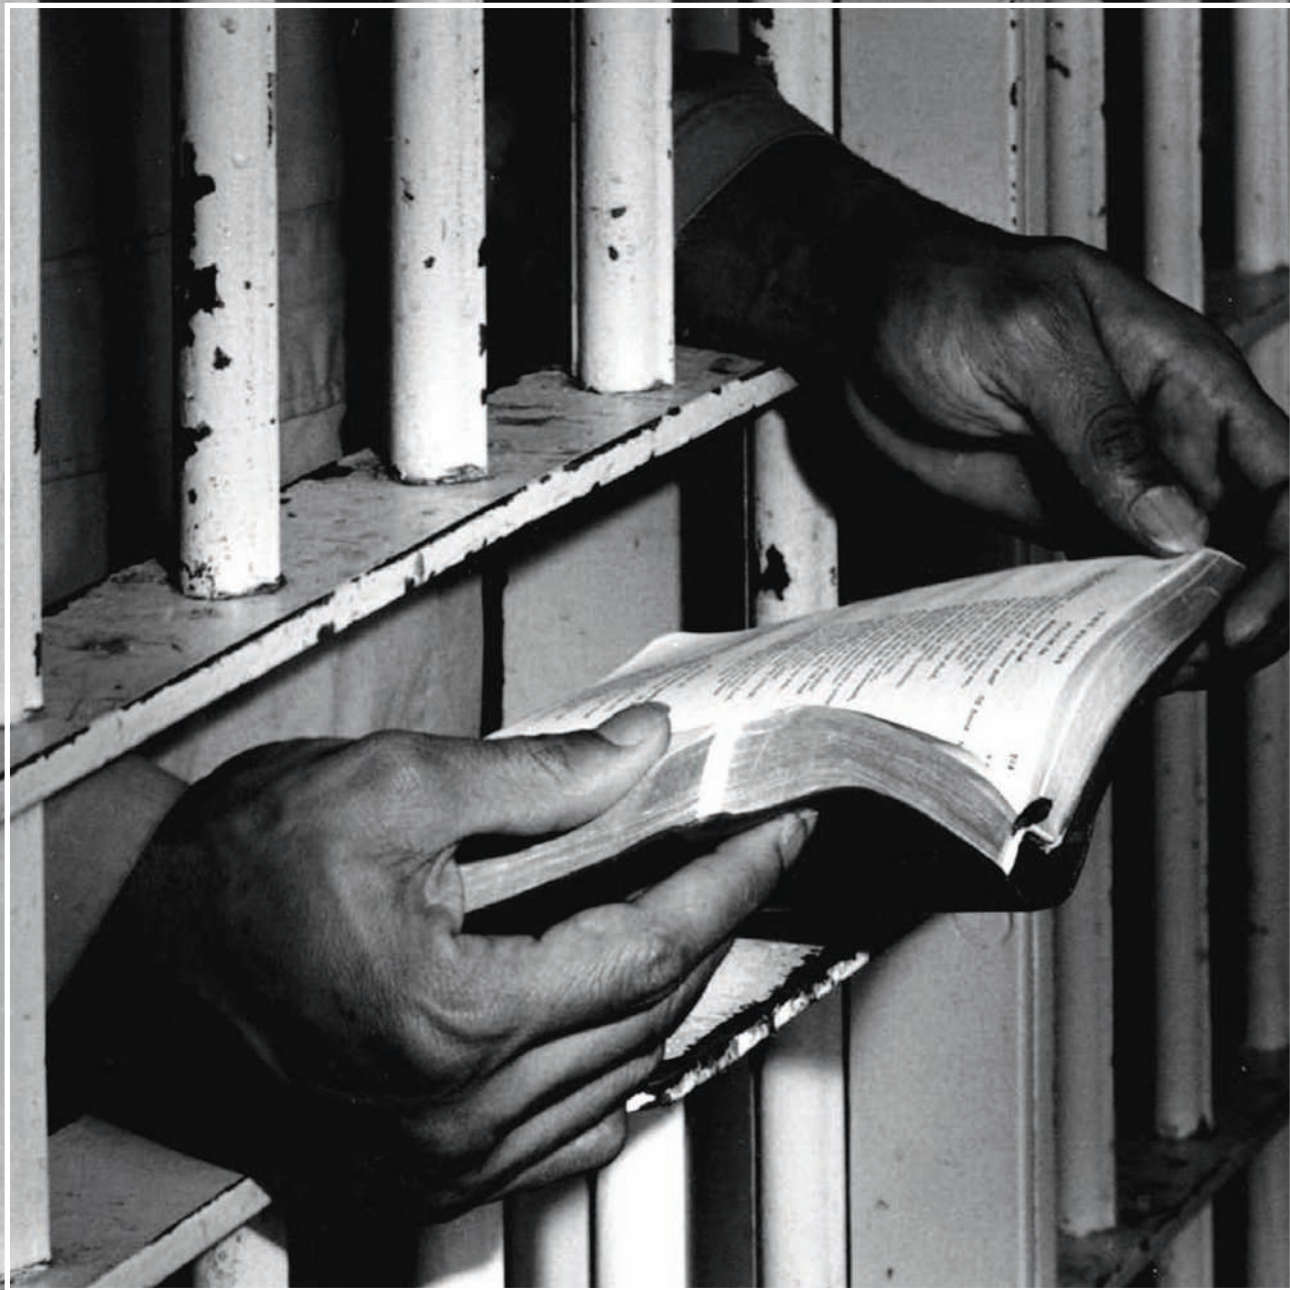

We are a group of independent enthusiasts, who are interested in spreading and preserving human rights culture, and providing assistance and advice for those in need. Manama Center for Human Rights handles complaints, transgressions and violations related to human rights to put an end to them and redress their consequences by every possible means.

The center is also concerned with conducting studies and researches, issuing publications about human rights and organizing training programs, workshops, seminars and conferences to boost the efficiency of human rights activities.

Aiming to be neutral in dealing with all relevant issues, the Manama Center for Human Rights had placed a set of regulations and policies for working members to ensure sufficient levels of integrity and transparency.
